**Reasons for the submission:**

1. Without limiting the reasons listed in the Table above, the Submitter supports proposals to rezone the area to the west of Ballantyne Road as Business Mixed Use Zone (with some restriction on residential and visitor accommodation use adjacent to Industrial Use for reverse sensitivity reasons).
2. A variation of General Industrial Zone to allow for ancillary office and commercial activities or Business Mixed Use Zone will provide for the most efficient and effective use of the land along Ballantyne Road.
3. This will provide flexibility for existing uses and smaller lot sizes for a range of light-industrial, office and commercial businesses. This kind of zoning is currently lacking in Wanaka and would make the most economically efficient use of the area while providing for positive street-engagement on an arterial route in and out of Wanaka.

The Further Submitter wishes to be heard in support of its submission.

If others make similar submissions, the submitter will consider presenting a joint case at any hearing.
