3. SMALL HEATED POOL STATEMENT (ONLY FOR SMALL HEATED POOLS)

Does your 'Small Heated Pool' meet the following criteria:

- Top surface of every wall of the pool is at all points not less than 760mm above the adjacent floor or ground.
- The walls of the pool inhibit climbing.
- There are no climbable features within the 760mm radius of the top of the pool walls.

- My Small Heated Pool **meets all 3 above criteria**. Access is restricted by means of a 'Safety Cover'. The 'Safety Cover' restricts the entry of children when closed, is able to withstand a reasonably foreseeable load, is able to be readily returned to the closed position and has signage indicating its child safety features.
- My Small Heated Pool **does not meet all 3 above criteria**. As such, I cannot use a 'Safety Cover' to restrict access to my Small Heated Pool. The access to my Small Heated Pool is restricted in an alternative way and is therefore subject to periodic triennial inspections.
