

# WHAT TYPE OF TRADE WASTE DISCHARGE CATEGORY MAY APPLY TO MY BUSINESS?

## WHAT IS PRE-TREATMENT?

Pre-treatment is where you treat your wastewater in some way prior to discharging it as trade waste to the wastewater network, in order to meet your trade waste classification and/or consent conditions (e.g. using a grease trap).

## HOW DO I KNOW IF MY PREMISE DISCHARGES MORE THAN 2000L/DAY OF WASTEWATER?

It is likely if your food & beverage premise is open for more than 10 hours/day or your accommodation premise can accommodate more than 8 persons/night.
