10.1 Zone Purpose

This zone covers the older part of the residential settlement of Arrowtown. The area has a distinctive character and atmosphere which has evolved from the development pattern set at the time of early gold mining in the District.

The purpose of this zone is to allow for the continued sensitive development of the historic area of residential Arrowtown in a way that will protect and enhance those characteristics that make it a

ARROWTOWN RHMZ 10

valuable part of the town for local residents and for visitors attracted to the town by its historic associations and unique character.

In particular the zone seeks to retain the early subdivision pattern and streetscape, and ensure future development is of a scale and design sympathetic to the present character.

Unlike other residential zones, infill housing is not anticipated. However, as with the remainder of the District's residential zones, Residential Flats are provided for as a fundamental part of a standard residential unit to increase the diversity of residential accommodation in the zone as well as recognise the diverse household types and preferences within the District.

The Town Centre Transition Overlay provides for limited expansion of commercial activities in an identified location adjoining the town centre. Any modifications to existing buildings or properties are expected to retain the historical character and qualities of the Old Town Residential Area.

Visitor accommodation is anticipated in the Visitor Accommodation Sub-Zones shown on the District Plan web mapping application, which have historically provided (and will continue to provide) important locations for visitor accommodation to meet the District's needs, and in the Arrowtown Town Centre Transition Overlay. The sub-zones are located in residential areas, and applications for visitor accommodation activities and associated development must address matters that impact on residential amenity, including character, traffic and noise effects.

Visitor accommodation outside of the Arrowtown Town Centre Transition Overlay and the Visitor Accommodation Sub-Zone is restricted.

The commercial letting of residential properties as short-term accommodation for paying guests on a year-round or permanent basis, is restricted, where it would result in a loss of residential character, cohesion and amenity values. Low intensity use of residential units, including residential flats, to accommodate paying guests is enabled, where the predominant residential character of the environment is retained and the residential amenity values of nearby residents is maintained.

Visitor accommodation is defined in the District Plan separately from accommodation activities involving paying guests occurring in residential units and residential flats, which are defined as Residential Visitor Accommodation and Homestay activities.

10.2 Objectives and Policies

10.2.1 Objective – Development retains or enhances the historic character and amenity values of the zone, which is characterised by larger sites, low scale and single storey buildings, the presence of trees and vegetation and limited hard paving.

Policies

10.2.1.1 Apply development controls around building location, scale and appearance, and landscaped areas, to ensure the special character of the area is retained or enhanced.

10.2.1.2 Encourage buildings to be located and designed in a manner that complements the character of the area guided by the Arrowtown Design Guidelines 2016.

10.2.1.3 Control the subdivision of land and regulate density to ensure the character resulting from the existing large lot sizes and historical subdivision pattern is retained.

ARROWTOWN RHMZ 10

10.2.1.4 Ensure that any commercial and non-residential activities, including restaurants, maintain or enhance the amenity, quality and character of the zone and surrounding area.

10.2.1.5 Avoid non-residential activities that would undermine the amenity of the zone or the vitality of Arrowtown's commercial zone.

10.2.2 Objective - Community activities that are best suited to a location within a residential environment close to residents are provided for.

Policies

10.2.2.1 Enable the establishment of small scale community activities where adverse effects on the character and amenity values of the area in terms of noise, traffic and visual impact can be avoided or mitigated.

10.2.3 Objective - Development efficiently utilises existing infrastructure and otherwise minimises impacts on infrastructure and road networks

Policies

10.2.3.1 Ensure vehicle access and parking is located and designed to optimise efficiency and safety, and designed in sympathy with the character of the area.

10.2.3.2 Encourage low impact approaches to stormwater management.

10.2.4 Objective - The Arrowtown Town Centre Transition Overlay provides for non-residential activities that provide local employment and commercial services to support the role of the Town Centre Zone.

Policies

10.2.4.1 Provide for commercial activities that are compatible with the established residential scale, character and historical pattern of development within the Arrowtown Town Centre Transition Overlay.

10.2.4.2 Limit retailing in the Town Centre Transition Overlay to ensure that the Town Centre Zone remains the principal focus for Arrowtown's retail activities.

10.2.4.3 Ensure that the licenced premises within the Arrow Lane, Wiltshire Street and Berkshire Street Town Centre Transition Overlay protect the amenity of adjoining residential properties.

10.2.5 Objective –Visitor accommodation, residential visitor accommodation and homestays are enabled at locations, and at a scale, intensity and frequency, that maintain the residential character and amenity values of the zone.

Policies

10.2.5.1 Provide for visitor accommodation and residential visitor accommodation that is appropriate for the low density residential environment in the Arrowtown Town Centre Transition Overlay and the Visitor Accommodation Sub-Zone.

ARROWTOWN RHMZ 10

- 10.2.5.2 Restrict the establishment of visitor accommodation in locations outside the Arrowtown Town Centre Transition Overlay and the Visitor Accommodation Sub-Zone to ensure that the zone maintains a residential character.
- 10.2.5.3 Ensure that residential visitor accommodation and homestays are of a scale and character that are compatible with the surrounding residential context and maintain residential character and amenity values.
- 10.2.5.4 Provide opportunities for low intensity residential visitor accommodation and homestays as a contributor to the diversity of accommodation options available to visitors and to provide for social and economic wellbeing.
- 10.2.5.5 Manage the effects of residential visitor accommodation and homestays outside the Visitor Accommodation Sub-Zone by controlling the scale, intensity and frequency of use and those effects of the activities that differentiate them from residential activities.
