26.1 Purpose

The purpose of this chapter is to promote the sustainable management of the District's historic heritage¹ features. These features are an important part of the amenity and character of our natural, physical and cultural heritage. Protecting these helps retain the District's character, history, and sense of place. This will be achieved by identifying and recognising heritage values, which can then be offered protection through the Plan.

This chapter contains objectives, policies and rules relating to:

- the Inventory of Listed Heritage Features (26.8), which includes all listed buildings, structures, and other features;
- heritage Precincts;
- heritage Overlay Areas.

¹ Sec 2A RMA

26.2 Identification and Protection

26.2.1 Categorisation and future listing

The District’s most significant known listed heritage features are represented in the Inventory of Listed Heritage Features (26.8). Although they all have heritage value, they are categorised according to their relative level of importance which allows different levels of regulatory protection to be applied. For listed heritage features there are three categories: 1 to 3, with Category 1 being the most significant.

Queenstown Lakes District Council acknowledges that the Inventory represents an identification and categorisation of listed heritage features at the time this plan was reviewed and may subsequently change. Nominations for inclusions, removals or amendments to categories for individual features will be considered, but should contain sufficiently detailed and robust reports in line with assessments that the Council uses. Evidence that affected owners have been informed and consulted should be provided and:

- a. for heritage precincts and Heritage Overlay Areas, a report from a person with relevant qualifications and/or experience in heritage conservation or landscape architecture or a person with demonstrated experience as an adviser or manager on projects involving heritage precincts or areas, is recommended. These may include site specific reports from government bodies with a remit for heritage, such as Heritage New Zealand Pouhere Taonga and the Department of Conservation;
- b. for individual buildings and structures, a report from a person with relevant qualifications and/or experience in heritage conservation, using the Council’s criteria, and for Category 1 features, a Conservation Plan is encouraged. Any Conservation Plan shall be prepared in accordance with Heritage New Zealand’s Best Practice guidelines;
- c. for sites that require the use of archaeological methods, a detailed assessment by a person with relevant qualifications and/or experience in archaeology.

Section 26.2.1 and relief sought	Appellant Court Number	Consequentially Affected Provisions
Amend section 26.2.1 to delete requirement for “a report from an appropriately qualified and experienced conservation / landscape architect” or amend provision to clarify precisely what an “appropriately qualified and experienced conservation / landscape architect” entails. Amend section 26.2.1(c): for individual buildings and structures, a report from a suitably qualified conservation architect, using the Council’s criteria, and for Category 1 features, a Conservation Plan <u>is encouraged</u> . Any Conservation Plan shall be prepared in accordance with heritage New Zealand’s Best Practice guidelines;	Heritage — New — Zealand Pouhere Taonga ENV-2018-CHC-070 Consent Order issued	

26.2.2 Description of listed Heritage Features Categories 1 – 3

- Category 1 Category 1 Heritage Features warrant the highest level of protection as they are very significant nationally or regionally. Category 1 shall include all places of the highest historical or cultural heritage significance including, but not limited to, all features in Category 1 of the Heritage New Zealand ‘New Zealand Heritage List/ Rarangi Kohero’.
- Category 2 Category 2 Heritage Features warrant permanent protection because they are very significant to the District and/or locally.

Category 3 Category 3 Heritage Features are significant to the District and/or locally and their retention is warranted. The Council will be more flexible regarding significant alterations to heritage features in this Category. Category 3 shall include all other places of special historical or cultural value.

26.2.3 Evaluation

Development affecting historic heritage can be a complex matter because of the sensitivity of the values associated with them. The evaluation criteria contained in this section 26.6.1 of this chapter shall form the basis of any 'Assessment of Effects' on activities affecting heritage features. Early consultation on development proposals is recommended with heritage professionals, Heritage New Zealand and community heritage groups, before the design stage.

26.2.4 Archaeology Alert Layer

The HNZPTA 2014 makes it unlawful to destroy or modify the whole or part of an archaeological site without the prior authority of Heritage New Zealand. This is a separate statutory process to obtaining any resource consents required under this District Plan, but is an important step for applicants to consider when preparing a resource consent application which might affect an archaeological site. An archaeological site is defined in the HNZPTA 2014 and is also included in the list of definitions under Section 26.6.

Given the large number of archaeological sites within the District, they are not shown on the District Plan web mapping application. However to assist prospective applicants, an alert layer is maintained by the Council which identifies particularly significant groups of sites or significant sites of unknown extent. This layer is for information purposes only, and users of the Plan are recommended to undertake early consultation with Heritage New Zealand.

This alert layer does not necessarily contain all archaeological sites but is intended to provide applicants with an easily accessible means of undertaking an initial check of the subject site. The alert layer will be updated as new information is made available to the Council. It does not form part of the District Plan web mapping application.

26.3 Objectives and Policies

26.3.1 Objective - The District's historic heritage is recognised, protected, maintained and enhanced.

Policies

26.3.1.1 Ensure historic heritage features within the District that warrant protection are recognised in the Inventory of Listed Features (26.8).

26.3.1.2 To enhance historic heritage through:

- a. increasing the knowledge and understanding of heritage values;
- b. providing for the enhancement of heritage values through works which increase the resilience of heritage features by way of repairs and upgrades to meet building and safety standards, subject to these works being undertaken in a manner which respects heritage values and where possible retains original heritage fabric or utilises the same or similar materials.

26.3.1.3 Protect historic heritage values while managing the adverse effects of land use, subdivision and development, including cumulative effects, taking into account the significance of the heritage feature, area or precinct.

- 26.3.1.4 Where activities are proposed within the setting or extent of place of a listed heritage feature, to protect the heritage significance of that feature by ensuring that:
- a. the form, scale and proportion of the development, and the proposed materials, do not detract from the listed heritage feature located within the setting or extent of place;
 - b. the location of development does not detract from the relationship that exists between the listed heritage feature and the setting or extent of place, in terms of the values identified for that feature;
 - c. existing views of the listed heritage feature from adjoining public places, or publicly accessible places within the setting or extent of place, are maintained as far as is practicable;
 - d. hazard mitigation activities and network utilities are located, designed, or screened to be as unobtrusive as possible.
- 26.3.1.5 Avoid the total demolition, or relocation beyond the site, of Category 1 heritage features.
- 26.3.1.6 Discourage the total demolition of Category 2 heritage features, or the partial demolition of Category 1 and Category 2 heritage features, unless evidence is provided which demonstrates that:
- a. other reasonable alternatives have been shown to be impractical;
 - b. there is a significant risk to public safety or property if the feature or part of it is retained;
 - c. the heritage feature is unable to serve a productive use or its retention would impose an unreasonable financial burden on the building owner.
- 26.3.1.7 Protect archaeological and historic heritage values of listed archaeological sites while managing the adverse effects of land use and development, including cumulative effects.
- 26.3.1.8 Promote the retention of Category 3 heritage features, or where the partial demolition of a Category 3 heritage feature is proposed, reduce adverse effects on its overall heritage values.
- 26.3.1.9 Discourage the relocation of Category 2 heritage features beyond the site, or within the site, unless evidence is provided which demonstrates that:
- a. relocation is necessary to facilitate the ongoing use or protection of the heritage feature(s), or to ensure public safety;
 - b. measures are in place to minimise the risk of damage to the heritage feature;
 - c. the heritage values of the heritage feature(s) in its new location are not significantly diminished.
- 26.3.1.10 Where the relocation of Category 3 heritage features either beyond or within the site is proposed, to have regard to:
- a. the ongoing use or protection of the heritage feature, or to ensure public safety;
 - b. measures to minimise the risk of damage to the heritage feature;
 - c. the heritage values of the heritage feature in its new location;

- d. within a Heritage Precinct, the effects on the heritage integrity of that precinct including adjoining structures and the precinct as a whole.

26.3.2 Objective - The sustainable use of historic heritage features.

Policies

- 26.3.2.1 Encourage the ongoing economic use of heritage features, sites and areas by allowing adaptations and uses that are in accordance with best practice, and:
- a. enhance heritage values in accordance with Policy 26.3.1.2;
 - b. do not result in adverse cumulative effects through successive alterations over time;
 - c. provide an economically viable use for the protected heritage feature, subject to any works being undertaken in a manner which respects its heritage values;
 - d. recognise the need for modification through works which increase the resilience of heritage buildings by way of necessary repairs and upgrades, subject to these works being undertaken in a manner which respects heritage values.

Amend Policy 26.3.2.1(d): recognise the need for modification through works which increase the resilience of heritage buildings by way of necessary repairs and upgrades to meet building and safety standards, subject to these works being undertaken in a manner which respects heritage values.	Real Journeys Limited ENV-2018-CHC-131 Consent Order issued	Rule 26.5.2

- 26.3.2.2 Encourage the maintenance of historic heritage features by allowing minor repairs and maintenance.

26.3.3 Objective - The diversity of historic heritage features, heritage precincts, heritage overlay areas and values associated with them, are recognised.

Policies

- 26.3.3.1 Identify the heritage values of heritage precincts, listed heritage features, sites of significance to Maori, areas of heritage significance and archaeological sites.

Policy 26.3.3.1 and relief sought	Appellant Court Number	Consequentially Affected Provisions
Amend Policy 26.3.3.1: Identify the heritage values of heritage precincts, heritage features, sites of significance to Maori, and areas of heritage significance, and in conjunction with heritage New Zealand archaeological sites.	Heritage New Zealand Pouhere Taonga ENV-2018-CHC-070 Consent Order issued	

- 26.3.3.2 Ensure that in making decisions on development proposals, the effects on tangible and non-tangible values of sites of significance to Maori, are informed by those mandated to do so.

- 26.3.3.3 Recognise and protect the different layers of history within heritage (overlay) areas and the relationship between these layers, to retain their cultural meaning and values.

26.3.4 Objective - The historic heritage value of heritage features is enhanced where possible.

Policies

- 26.3.4.1 Encourage opportunities to enhance the understanding of historic heritage features, including through the need for interpretation.
- 26.3.4.2 Provide incentives for improved outcomes for heritage values through the relaxation of rules elsewhere in the District Plan where appropriate, on a case-by-case basis.
- 26.3.4.3 Recognise the value of long term commitments to the preservation of heritage values in the form of covenants and consent notices.
- 26.3.4.4 Enable ongoing improvements to heritage features including earthquake strengthening and other safety measures, in recognition that this will provide for their ongoing use and longevity.
- 26.3.4.5 Recognise the potential for recommending mining activities of a scale consistent with the maintenance of heritage and landscape values within the Glenorchy heritage overlay area, subject to the protection of features identified in section 26.10.

Policy 26.3.4.5 and relief sought	Appellant Court Number	Consequentially Affected Provisions
Amend Policy 26.3.4.5 as follows: Recognise the potential for ongoing small-scale mining activities consistent with the maintenance of heritage and landscape values within the glenorchy heritage overlay area, subject to the protection of features identified in section 26.10.	New Zealand Tungsten Mining Limited ENV-2018-CHC-151 (consent order issued)

26.5.19 Non- Notification

The provisions of the RMA apply in determining whether an application needs to be processed on a notified basis. Except as qualified under Table 4, no activities or non-compliances with the standards in this chapter have been identified for processing on a non-notified basis.

26.6 Evaluation Criteria

26.6.1 Evaluation criteria for categorizing and including features in the Inventory of Listed Heritage features (26.8)

The following criteria are used to determine the listing and category of listed features, whether a feature should be included in the Inventory, and the category of such listed features; and Heritage Assessments exist for many of the Listed Heritage Features and these provide a detailed assessment of the values of the feature and a conclusion of its overall significance. These assessments are available from the Council and should be used as the starting point for any evaluation. Where such an

²Heritage New Zealand Pouhere Taonga Act 2014

assessment does not exist, then your evaluation will need to be based on existing historical information, which can be obtained from various sources, including the Council's archaeological alert layer, Heritage New Zealand, the Council's resource consent files, and the Lakes District Museum.

1. Historic and Social Value
 - a. whether the feature reflects characteristics of national and/or local history;
 - b. with regard to local history, whether the feature represents important social and development patterns of its time, such as settlement history, farming, transport, trade, civic, cultural and social aspects;
 - c. whether the feature is significant in terms of a notable figure, event, phase or activity;
 - d. the degree of community association or public esteem for the feature;

 - f. cultural and spiritual value;
 - g. whether it is of special significance to Tangata Whenua;
 - h. contribution to the characteristics of a way of life, philosophy, religion or other belief which is held by a particular group or community.
2. Cultural and Spiritual Value
 - a. whether it is of special significance to Tangata Whenua;
 - b. contribution to the characteristics of a way of life, philosophy, religion or other belief which is held by a particular group or community
3. Architectural Value
 - a. whether the building or structure has architectural or artistic value;
 - b. whether the feature represents a particular era or style of architecture or significant designer;
 - c. whether the style of the building or structure contributes to the general character of the area;
 - d. the degree to which the feature is intact.;
 - e. whether the building or structure has undergone any alteration, thereby changing the original design.
4. Townscape and Context Value
 - a. whether the feature plays a role in defining a space or street;
 - b. whether the feature provides visual interest and amenity;
 - c. degree of unity in terms of scale, form materials, textures and colour in relation to its setting and/or surrounding buildings.
5. Rarity and Representative Value

- a. whether the feature is a unique or exceptional representative of its type either locally or nationally;
 - b. whether the feature represents a way of life, a technology, a style or a period of time;
 - c. whether the feature is regarded as a landmark or represents symbolic values;
 - d. whether the feature is valued as a rarity due to its type, style, distribution and quantity left in existence.
6. Technological Value
- a. whether the building has technical value in respect of the structure, nature and use of materials and/or finish;
 - b. whether the building or structure is representative of a particular technique.
7. Archaeological Value
- a. significance in terms of important physical evidence of human activities which through archaeological investigation could provide knowledge of the history of Otago and New Zealand.

26.7 Inventory of Precincts

26.7.1 Queenstown Courthouse Heritage Precinct

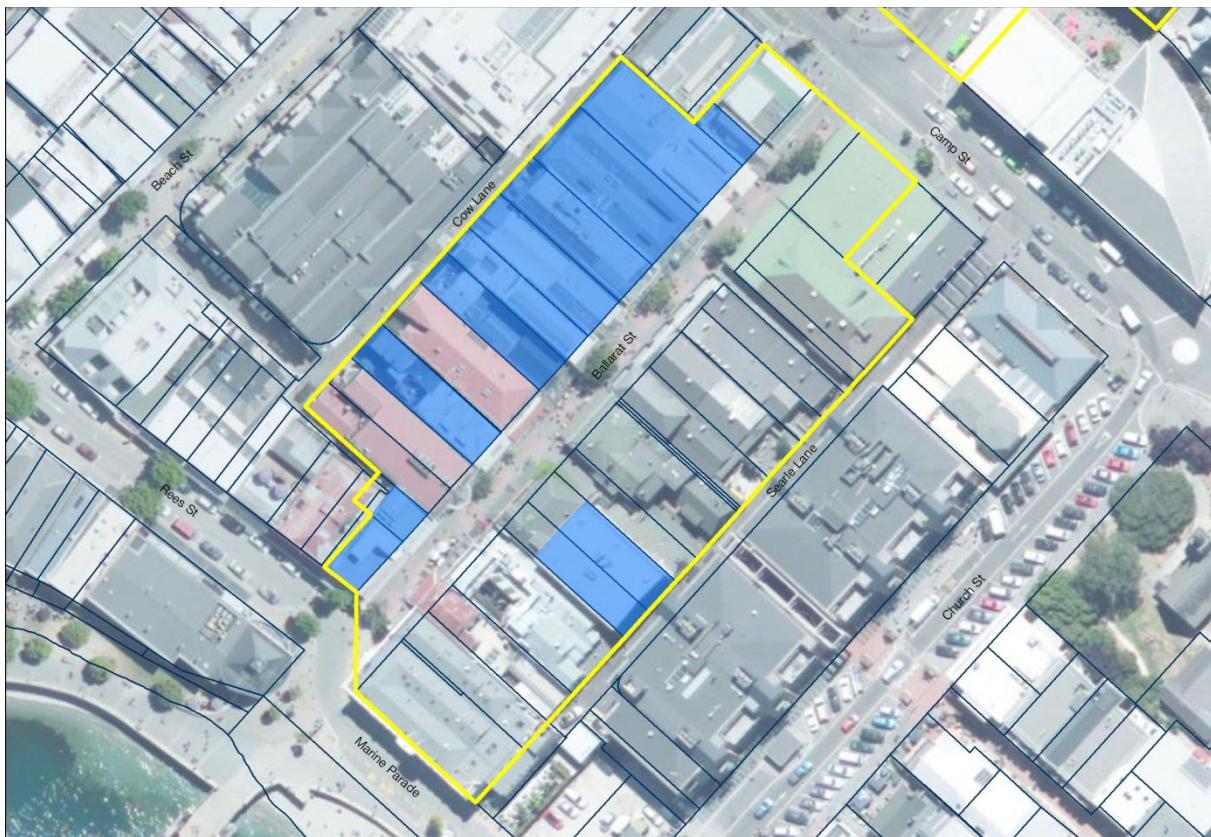

26.7.2 Statement of Significance

The Precinct represents the historically significant civic centre of Queenstown and contains a number of important heritage buildings, open spaces and structures. Their design and the nature of their stone construction convey their high status within the District. The buildings / structures are an architectural statement of permanency, stability and prosperity as the town evolved progressively from its early canvas tent and timber structures to a new generation of enduring public buildings. The buildings / structures generally remain intact and have a high degree of historical and architectural authenticity within the town. They are very distinctive and prominent features of the townscape in this part of Queenstown and define its provenance. Their scale, form and materials are characteristic of 19th century Queenstown and, together, they are considered to have high 'group' / contextual value in relation to each other. The Stone Bridge is also a rare example of its kind in the District.

26.7.3 Key features to be protected

- 26.7.3.1 The individual principal historic buildings; their form, scale, materials and significance. Incremental loss must be avoided.
- 26.7.3.2 The 'group' value of the buildings within the Precinct and their setting within it, including the open spaces.
- 26.7.3.3 The townscape / landmark value of the Precinct, i.e., other buildings, development and signage within the Precinct or adjoining it should not adversely affect or diminish the significance of the Heritage Precinct.

26.7.4 Queenstown Mall Heritage Precinct

Blue shapes are the non-contributory buildings.

26.7.5 Statement of Significance

The Precinct represents the historically significant commercial centre of Queenstown and still embodies its early settlement pattern from when the town was set out in 1864. This is evident in the arrangement of the sections and the street layout within the precinct. The Precinct contains a wide variance of architectural styles and features of interest is centred on the Mall (Ballarat Street), which since the earliest days of Queenstown has been the principal thoroughfare from the lake through the town. The route of Ballarat Street running up to Hallenstein Street and the frontage of Eichardt's hotel near the lake provide an historically iconic view of the town from the lake of outstanding townscape and contextual value. The Precinct is considered to have high archaeological value for the evidence that it could provide of the early settlement of Queenstown and its pre-1900 development.

26.7.6 Key features to be protected

- 26.7.6.1 The group of reasonably intact 19th century commercial buildings / structures towards the lake end of the Mall and their setting within the Precinct.
- 26.7.6.2 The early settlement pattern of the town (the arrangement of the sections and the street layout within the Precinct). Incremental loss must be avoided.
- 26.7.6.3 The view of the Precinct from the lake – including the straight view up Ballarat Street to Hallenstein and vice- versa.
- 26.7.6.4 The archaeology of the Precinct.

26.7.7 Queenstown Marine Parade Heritage Precinct

Blue shapes are the non-contributory buildings.

26.7.8 Summary of significance

The combination of the heritage buildings, the environs of Marine Parade and the shoreline of Lake Wakatipu and the landscape beyond, result in the Heritage Precinct being of unique and exceptional townscape significance. The heritage buildings within the Precinct are representative of the evolution of the early settlement into a permanent and prosperous town. The Masonic Lodge and William’s Cottage are thought to be amongst the oldest buildings in the town and create a Precinct of architectural ‘gems’, which signifies the social and tourist heritage of the town.

26.7.9 Key features to be protected

- 26.7.9.1 The individual principal historic buildings; their form scale, materials and significance. Incremental loss must be avoided.
- 26.7.9.2 The unique and exceptional townscape significance of the Precinct.

26.7.10 Arrowtown Town Centre Heritage Precinct

26.7.11 Statement of Significance

The precinct represents the commercial centre of the town and includes a nucleus of heritage buildings that have developed on the site of the 1864 relocated town centre. Buildings such as the former BNZ bank premises (associated with the renowned architect, R.A. Lawson) and Pritchard's Store date from the mid -1870s are symbolic of the development of the town during that economically stable period. The Postmaster's House and Post & Telegraph office have origins in the 20th century and are symbolic of the later progression of the town. The Precinct is held in high esteem by the local community and visitors alike and is a very popular tourist attraction. It contains heritage buildings / structures that are of high aesthetic and architectural significance within the District and wider region as authentic examples or representation of a goldfields' town dating from the 1860s and 1870s. It is considered to have high archaeological value for the evidence that it could provide of pre-1900 commercial Arrowtown dating to the early to mid – 1860s.

26.7.12 Key features to be protected

- 26.7.12.1 The unity of the Precinct in terms of scale, form, materials, textures and colours in relation to its mountain and river setting.
- 26.7.12.2 The 'group' value of the Precinct and its representative image of a traditional goldfields town.
- 26.7.12.3 The streetscape, and street and section patterns.
- 26.7.12.4 Views through the Precinct.
- 26.7.12.5 Archaeology.

26.7.13 Arrowtown Cottages Heritage Precinct

Blue shapes are the non-contributory buildings.

26.7.14 Statement of Significance

The Precinct represents the historically significant and authentic early years of the settlement and development of Arrowtown from, principally, a social perspective. It contains some of the town's most important buildings and features, including 1870s miners' cottages, the Masonic Lodge, the Green and the tree-lined avenue. The architectural and aesthetic quality of the precinct is derived from its plain, functional, small scale buildings, principally of timber and iron, which represent the typical form of accommodation in which miners and their families lived during the Central Otago Gold Rush years. The larger stone buildings demonstrate progress and permanence as the prosperity and confidence of the town grew. The tree-lined avenue and Green have great aesthetic appeal and provide the setting for the buildings within the precinct. The Precinct has very high townscape / contextual and rarity significance within the District.

26.7.15 Key Features to be protected

- 26.7.15.1 The individual principal historic buildings; their form, scale, materials and significance. Incremental loss must be avoided.
- 26.7.15.2 The 'group' value of the buildings within the precinct and their setting within it, including the open spaces.
- 26.7.15.3 The townscape / landmark value of the Precinct i.e., other buildings, development and signage within the Precinct or adjoining it should not adversely affect or diminish the significance of the heritage Precinct.
- 26.7.15.4 Archaeology.

26.9 Sites of Significance to Maori

26.10 Heritage Overlay Areas

26.10.1 Skippers Heritage Overlay Area

26.10.2 Statement of Significance

The Skippers Heritage Overlay Area (SHOA) represents some of the most historically and archaeologically significant 19th century gold mining sites in Otago and Southern New Zealand. Together, the diverse gold mining sites and features form a historically rich landscape that embodies the 1860s gold mining efforts and challenges of early miners, as well as later, more sophisticated mining technology that was needed to access the more difficult deposits of gold. In combination with the remote and stunning natural landscape of the Shotover River valley, the SHOA offers a unique, largely intact, and publicly accessible historic gold mining experience for visitors to the Shotover River. Within the SHOA, the precipitous later 19th century Skippers Road (1883 to 1890), the deserted Skipper's Township (1862) and the 1901 Skippers Suspension Bridge are all highly significant heritage sites that have been recognised by their Heritage New Zealand listings. In addition, over 130 archaeological sites within the SHOA are entered on the New Zealand Archaeological Association Site Recording Scheme, demonstrating the outstanding heritage significance of the Skippers Heritage Overlay Area.

26.10.3 Key Features to be protected

- 26.10.3.1 The Skippers Road and its historic revetments and construction features.
- 26.10.3.2 The Skippers suspension bridge and former township area.
- 26.10.3.3 All other known archaeological sites, including sluiced terraces.
- 26.10.3.4 Unobstructed views along the Skippers Canyon section of the Shotover River.

26.10.4 Moke Lake and Sefferton Heritage Overlay Area

26.10.5 Statement of Significance

The Sefferton and Moke Lake Heritage Overlay Areas ((SMLHOA) are significant for their concentrations of historic gold and copper mining remains, which include both mining infrastructure and settlement sites. The extensive and well preserved complex of features along Moonlight Creek and Moke Creek are an important part of the wider history of the Wakatipu gold rush, linking closely with the Shotover River, Arrow River and Macetown / Rich Burn goldfields. Sefferton / Moke Creek was the site, albeit short lived, of an early tented gold rush township that settled into a remote, mountain community that survived into the 1950's. Its remains provide tangible reminders of the many local stories that survive of the mining community and their hardships and life in the mountain goldfields of Otago.

26.10.6 Key Features to be protected

- 26.10.6.1 The former mining settlement remains at Moke Creek / Sefferton including the surviving cottages, huts, gardens and plantings.
- 26.10.6.2 The copper mining site along Moke Lake Road.
- 26.10.6.3 Moke Lake Road and the historic track to Butchers Hut along the true right bank of the Moonlight Creek.
- 26.10.6.4 The extensive stone and earthwork mining remains centred on Sheepyard Terrace and the Moonlight Creek.
- 26.10.6.5 The 8.8km water race leading from above Montgomery's Creek to the Sheepyard Terrace area and below.
- 26.10.6.6 All other known archaeological sites and listed historic places within the SMLHA.

26.10.7 Glenorchy Heritage Overlay Area**26.10.8 Summary of Significance**

The Glenorchy Heritage Overlay Area (GHOA) is significant for its specific scheelite mining activities that extended from the 1880's until the 1980's, which have left a significant group of mine sites and infrastructure, along with a unique social history of the people who worked there. Collectively, these activities left behind a sequence of evidence that follows the mining cycle that began here in the 1880s and which may well recommence at some point in the future. The sites within this heritage overlay area represent the hard won and sometimes fruitless endeavours of a close knit community of miners that spanned a hundred years of mining at Glenorchy. The GHOA encompasses the majority of the key mine sites, tracks, a cableway and sections of water races that represented the primary scheelite producing area in New Zealand. The combination of private and state-owned mines is also a unique part of the GHOA's history in the ubiquitous and contemporary gold mining industry of the Wakatipu

Basin. Overall, the scheelite mining history symbolised by the GHOA is a unique one of national heritage significance.

26.10.9 Key features to be protected

26.10.10 Macetown Heritage Overlay Area**26.10.11 Summary of significance**

Although it covers a large area, the Macetown Heritage Overlay Area (MHOA) is significant for its concentration of historic gold mining sites, focussed on the deserted mining town of Macetown, which span from the earliest exploitation of gold in the Arrowtown area in 1862, through to the end of gold mining in the 1930's. Such a continuum of mining activity – first alluvial then hard-rock or quartz – has left a distinct and intelligible landscape with diverse features and stories linked by a series of mining tracks that still allow access to this remote and stunning countryside. The MHOA encompasses three key areas; the Rich Burn Valley, Macetown and the Arrow River valley, all three of which have distinctive characters and features that coalesce to form a broader mining heritage of regional significance. Among these, Macetown is highly significant, representing the surviving remains of a remote 19th century mining village to which stories are still attached and some history has been traced to its founders, occupants and demise. Situated within its larger mining heritage context, Macetown can be interpreted as part of a community of gold mining activity sites, which are a key part of the wider Otago gold mining story.

26.10.12 26.10.12 Key features to be protected

- 26.10.12.1 The (Department of Conservation) Macetown Historic Reserve area including the Macetown Road.
- 26.10.12.2 The Rich Burn mining remains (e.g., Anderson's Battery and the Homeward Bound Battery; the Sunrise Mine Office).
- 26.10.12.3 The historic mining tracks of Hayes Creek, Sawpit Gully and Advance Peak and similar tracks within the MHOA.
- 26.10.12.4 All other known archaeological sites and listed historic places within the MHOA.
