

IN THE MATTER

of the Resource
Management Act 1991

AND

IN THE MATTER

of Stage 3 of the
Queenstown Lakes
Proposed District Plan

MINUTE 38 – STREAM 16 INFORMATION REQUESTS

1. During the course of the Hearing Panel's deliberations, two issues have arisen in respect of which the Panel would appreciate further information.
2. The first question is for the Council. Kā Rūnaka have produced a series of maps numbered 5.1-5.15 showing suggested 'corrections' to the Wāhi Tūpuna maps with the expressed intention of only extending Wāhi Tūpuna areas where that will take in Crown or Council land. Has the Council verified that the end result achieves that objective, namely that no non-Council or non-Crown land has a Wāhi Tūpuna overlay as a result of the suggested remapping? If not, I request that the Council undertake that exercise and advise the results.
3. The second question is for Kā Rūnaka. Map 5.9 shows the #29 Kimiākau Wāhi Tūpuna in the vicinity of Branches Station. The recorded recommendations suggest that there are a number of stretches where the notified Wāhi Tūpuna map does not take in the full extent of the river and should be extended to the boundary of the Crown marginal strip. However, unlike the other maps in this series, the map provided does not have red lines showing the location where it is suggested that the Wāhi Tūpuna area might be extended. It is not therefore possible to identify, looking at this map, where exactly that is recommended. The Hearing Panel would appreciate it if Kā Rūnaka could provide a replacement map 5.9 that more clearly indicates (in the manner of the other maps provided) what change to the notified map is recommended.

4. Responses from the Council and Kā Rūnaka respectively are requested to be in the hands of the Hearing Administrator by 1pm on 25 September 2020.

Dated 18 September 2020

**Trevor Robinson
Chair
Stage 3 Hearing Panel**
