Skipp Williamson (**Williamson**) wishes to be a party pursuant to section 274 of the RMA to the following proceedings:

Wills & Burden v Queenstown Lakes District Council (ENV-2019-CHC-044) (Wills Appeal) being an appeal against decisions of Queenstown Lakes District Council on Stage 2 of the Queenstown Lakes Proposed District Plan (PDP).

- Williamson is a person who made a submission about the subject matter of the proceedings.
- Williamson is a person who has an interest in the proceedings that is greater than the interest that the general public has, in particular:
 - (a) The Wills Appeal seeks a number of amendments to the provisions of Chapter 24 (Wakatipu Basin) relating to existing and future building rights within the Wakatipu Basin.
 - (b) Williamson has an interest in land within the Wakatipu Basin and lodged submissions and an appeal seeking similar relief to the provisions of Chapter 24 as that sought in the Wills Appeal, relating to existing and future building rights, recognition of rural living opportunities, minimum lot densities, and the proposed subdivision regime.
 - (c) The relief sought in the Wills Appeal has the potential to directly affect Williamson's interests, given that the provisions the subject of the Wills Appeal govern, along with other provisions, what Williamson can and cannot do on her land from a planning perspective.
- Williamson is not a trade competitor for the purposes of section 308C or 308CA of the RMA.
- 5 Williamson is interested in all of the proceedings.
- Without derogating from the generality of the above, Williamson is interested in the following particular issues:

Chapter 24 (Wakatipu Basin)

(a) The amendments sought to the zone purpose, the inclusion of a new objective and policy suite to recognise the benefits of rural living in the Wakatipu Basin, amendments to the Wakatipu Basin Lifestyle Precinct (WBLP) specific objective and associated policies, amendments to the

rules relating to existing and future residential buildings, the standards for building coverage, height, and density, and amendments to assessment matters.

Williamson supports the relief sought, insofar as it is consistent with the relief sought in the Williamson appeal, because generally the amendments sought to Chapter 24 better provide for existing building rights, enable appropriate further development, and achieve better planning outcomes.

8 Williamson agrees to participate in mediation or other alternative dispute resolution of the proceedings.
