<b>Chapter 18A General Industrial and Service Zone</b>		
Purpose 18A.1	<p>The purpose of the General Industrial and Service Zone is to provide for the establishment, operation and long-term viability of Industrial and Service activities. The Zone recognises the significant role these activities play in supporting the District's economic and social wellbeing by prioritising their requirements, and zoning land to ensure sufficient industrial development capacity.</p> <p>The Zone seeks to ensure a range of site sizes are available, including for those Industrial and Service activities which require larger buildings and more space for the purpose of outdoor storage, manoeuvring of vehicles including heavy vehicles. Ancillary Office, Retail and Commercial activities are important in supporting Industrial and Service activities and are enabled. Activities and development that would not primarily result in sites being used for Industrial and Service activities are avoided. This includes new Office, Retail and Commercial activities.</p>	<p>Change focus of zone away from solely Industrial and Service activities.</p> <p>Remove requirement for office, retail and commercial activities to be in support of Industrial and Service Activities.</p> <p>Remove wording around "avoiding" non-industrial and service activities.</p> <p>Continue to provide for future change and expansion of existing and consented Office, Retail and Commercial activities. Remove any reference to requirements for any change in these activities to be limited in nature and scale and to have to support and provide for Industrial and Service activities.</p>

	<p>A number of existing Office, Retail and Commercial activities were established within the Zone under the previous District Plan framework. The Zone seeks to recognise these activities by permitting them, and to provide for them to change overtime through the resource consent process. Any changes to these activities are likely to be limited in nature and scale so as to support the overall intent of the Zone to provide for Industrial and Service activities.</p> <p>While the Zone seeks to provide for land uses more commonly associated with noise, glare, dust, odour, shading, visual and traffic effects and other similar effects, it also seeks to manage activities and development to ensure that appropriate levels of amenity are achieved for people who work within and visit the Zone, and to avoid adverse amenity effects on land located outside of the Zone.</p>	
Objective 18A.2.1	Objective - Industrial and Service activities are enabled within the Zone and their long-term operation and viability is supported.	<p>Do not limit enablement to just Industrial and Service activities. Also enable Office, Retail, Commercial, Trade Retail and Food and Beverage activities and Commercial Recreation Activities; or</p> <p>Delete objective and associated policies</p>
Policy 18A.2.1.1	Enable a diverse range of Industrial and Service activities that provide benefit in the form of economic growth and skilled employment opportunities.	<p>Do not limit enablement to just Industrial and Service activities. Also enable Office, Retail, Commercial, Trade Retail, Food and Beverage and Commercial Recreation Activities;</p> <p>And/or</p> <p>Delete Policy</p>

Remove requirement for existing office, retail and commercial activities to have to remain the same or similar character, intensity and scale. Provide for future change and expansion of existing and consented activities.  Clarify that activities with resource consent are captured by the policy.
Policy 18A.2.1.4	Enable the operation of food and beverage retail activities which serve the daily needs and convenience of workers and visitors to the Zone.	Do not restrict the operation of food and beverage retail activities to only 'serving the daily needs and convenience' of workers and visitors to the zone.
Policy 18A.2.1.6	Recognise and provide for Trade Suppliers within the Zone only where the following can be demonstrated:  a. the activity plays a role in supporting the establishment, operation and long term viability of Industrial and Service activities; b. the activity is primarily involved in wholesaling related trade comprising the storage, sale and distribution of goods to other businesses and institutional customers, including trade customers; and  c. the activity has an operational need to be located within the Zone due to space	Provide for trade retail to service the general public by:  <ul style="list-style-type: none"> <li>• Removing requirement for Trade Suppliers to need to support the operation of and viability of Industrial and Service activities.</li> <li>• Removing requirements for trade supplier to have to primarily be involved in wholesaling.</li> <li>• Removing requirement to prove operational need to be situated within zone.</li> </ul> And/or  Delete policy.

Provide for needs of other activities to reflect current activities taking place in the GIZ and future demand for a broader range of activities.
Objective 18A.2.2	The establishment, operation and growth of Industrial and Service activities within the Zone is not undermined by incompatible land uses.	Delete objective as it is too ambiguous. It is not clear what 'incompatible land uses' are. A range of activities already exist in the area and so reverse sensitivity between existing and future activities needs to be taken into account.
Policy 18A.2.2.1	Avoid activities that are not compatible with the primary function of the zone and that have the ability to displace or constrain the establishment, operation and long term viability of Industrial and Service activities including: <ul style="list-style-type: none"> <li>a. Policy18A.2.2.3	<p>Avoid the cumulative establishment of activities and development within the Zone that would undermine the role played by town centre and other key business zones as the District's strategic hubs of economic activity.</p>	<p>Recognise that the type of activities that want to be situated in the town centre within walking distance of public parking facilities, visitor accommodation and the lakefront are often of a different nature to activities which also may be categorised under the definition of 'Retail' or 'Commercial' and are better suited to be located near existing businesses which are within similar industries in some parts of the GIZ.</p> <p>And/or</p> <p>Delete Policy.</p>

There are existing food and beverage outlets in the GIZ which do not directly support Industrial Activities. Any policies related to food and beverage activities should reflect existing nature of activities in the area.  And/or  Delete Policy.

Policy 18A.2.3.2	Control the location of ancillary Office, Retail and Commercial activities and encourage them to actively engage with the street frontage and public places.
