1. Update on Te Tapuae Southern Corridor structure plan, QLSP Monitoring Report and the Spatial Plan Gen 2.0 work programme

The purpose of this report was to recommend the adoption of the draft Te Tapuae Southern Corridor Structure Plan, for a 20-working day non-statutory feedback period.

Cameron Wood (Senior Strategic Planner) presented the item and spoke alongside Anita Vanstone (Strategic Growth Manager) and Michelle Morss (Strategy and Policy General Manager).

Councillor Cocks asked how reporting on this matter would proceed now that there is a joint committee formed to consider a joint approach to the regional deal negotiations that will report back to Council regularly.

Officers responded to questions on how values of Ngāi Tahu will be taken into account, whether there were more submissions related to Homestead Bay than other locations, whether it is a government policy not to include car parking, transport modelling and active transport, how Council is assessing the transport benefits of the plan, whether the transport model will be sophisticated enough to assess nodes related to a potential gondola, and whether there was feedback on active travel.

Officers noted that there has been no change to the actions noted on the last monitoring report, and also indicated that there will be increased reporting in the next report as requested by Councillor Smith.

Officers responded to further questions on whether the arterial project deadlines have been completed and if so whether they can be removed, what the Arthur's point crossing referred to, whether the communication strategy has been implemented, the likelihood that the National Policy Statement will stay in place, and whether updates will be necessary now that the Regional Deal negotiation process have commenced.

It was moved (Councillor White/Councillor Bartlett):

1. **Note** the contents of the report.

2. Update on Progress on the Proposed District Plan and Other Key Projects

Alyson Hutton (Manager Planning Policy) presented the item and went through the tables in the attachments to the report. Ms Hutton and Dave Wallace (Planning & Development General Manager) responded to questions.

Officers responded to a question on the potential impact of recent statements by Minister Bishop, and whether the report due in September could come earlier. Councillor Smith noted that the Section 293 application was hard to find on the website.
