

20 Settlement Zone

20.1 Purpose

The Settlement Zone applies to the settlements of Glenorchy, Kinloch, Kingston, Luggate, Makarora and Cardrona. The Zone provides for spatially well-defined areas of low density residential living. Due to the location of each settlement within rural areas, and as all settlements (except for Luggate) are located amidst Outstanding Natural Landscapes, the location and setting of each settlement are strong contributors to their individual identities.

Historically, settlements have served the function of rural service centres, however over time they have diversified to comprise a range of uses and activities that increasingly provide for the day-to-day needs of both residents and visitors. Settlements can provide opportunities for unique visitor experiences due to their location within distinctive landscape settings, and their relative isolation from the District's major urban centres.

Low density residential activity is provided for throughout the Zone. Visitor Accommodation Sub-Zones and Commercial Precincts on the Planning Maps show locations where visitor accommodation activities, and limited commercial, commercial recreation and community activities, are encouraged to establish. Limited commercial activities are also provided for outside of the Precincts, provided they are small-scale, primarily serve a local convenience purpose, and maintain residential amenity and character.

While development is anticipated within the Zone, some areas are subject to natural hazard risk. Low-lying areas at Glenorchy, Kinloch and Kingston that are susceptible to flooding are shown as 'Historical Flood Zone' on the Planning Maps, with corresponding rules relating to building levels. These rules implement the district-wide policies in Chapter 28 – Natural Hazards.

Within the Cardrona Settlement the Commercial Precinct applies to land located around the focal point of the Cardrona Hotel and Cardrona Valley Road. Throughout the balance of the Settlement Zone at Cardrona, the Visitor Accommodation Sub-zone enables the further establishment of visitor accommodation activities. The Cardrona Village Character Guideline 2012 provides broad design guidance to development within the Zone at Cardrona.

20.2 Objectives and Policies

20.2.1 Objective – Well designed, low density residential development is enabled within settlements located amidst the wider Rural Zone.

Policies

- 20.2.1.1 Enable low density residential development that retains character and amenity through the use of minimum lot sizes.
- 20.2.1.2 Ensure that development is designed in a manner that is consistent with the capacity of infrastructure servicing it.
- 20.2.1.3 Ensure appropriate on-site wastewater treatment and disposal, having particular regard to:
 - a. the method of sewage treatment and disposal;
 - b. the location, capacity and design of the proposed on-site wastewater treatment system;
 - c. the ability for the on-site wastewater system and run-off to be contained within the boundaries of the subject site regardless of seasonal variations and loading;

- d. the environmental effects of the proposed on-site wastewater treatment system including minimising adverse effects on ecosystem services and values to Manawhenua; and
- e. ensuring the location of vehicle accessways, manoeuvring and stormwater dispersal areas do not adversely affect the functioning of the on-site wastewater system.

20.2.2 Objective – High quality amenity values and residential character are maintained in the Settlement Zone.

Policies

- 20.2.2.1 Ensure that the height, bulk and location of residential development maintains the low density character, and residential amenity values of the Zone, by maintaining privacy, setbacks and access to sunlight.
- 20.2.2.2 Provide for net site areas that accommodate low density development with low site coverage by buildings, spacious outdoor areas and sufficient land area for on-site wastewater systems.
- 20.2.2.3 Ensure that development within the Zone is of low scale to complement the existing low scale of development.
- 20.2.2.4 Include development controls that reflect key characteristics of development in Settlements, including through building height limits, encouraging gable roof forms in Glenorchy and Cardrona, and ensuring consideration of the Cardrona Village Character Guideline 2012.
- 20.2.2.5 Limit the impact of glare on residential amenity and views of the night sky by way of standards that limit lighting glare and promote lighting design that mitigates adverse effects.
- 20.2.2.6 Avoid activities that are not consistent with established amenity values or cause inappropriate adverse environmental effects. In the case of Electricity sub-transmission infrastructure or Significant electricity distribution infrastructure, if avoidance is not practicable because of the functional needs of the infrastructure, then remedy or mitigate the relevant adverse effects.

20.2.3 Objective – Commercial, community and visitor accommodation activities are predominantly provided for within precincts and sub-zones, are limited in scale, provide for local and visitor convenience, and support the local economy.

Policies

- 20.2.3.1 Identify Commercial Precincts on the Planning Maps, within which commercial, visitor accommodation and community activities are provided for in order to meet the day-to-day needs of residents and visitors and support the local economy.
- 20.2.3.2 Restrict individual retail activities exceeding 200m² gross floor area, and individual office activities exceeding 100m² gross floor area, that may adversely affect the:
 - a. retention and establishment of a diverse range of activities within the Commercial Precinct;
 - b. role and function of commercial zones that provide for large scale retailing; and
 - c. safe and efficient operation of the transport network.
- 20.2.3.3 Encourage development within Commercial Precincts to facilitate active transport and recreational opportunities, through design that ensures connectivity with reserves and pedestrian and cycling links.

- 20.2.3.4 Control the height, scale, appearance and location of buildings within Commercial Precincts to achieve a built form that:
- complements the established pattern of development;
 - positively contributes to the streetscape; and
 - minimises adverse effects on neighbouring residential activities.
- 20.2.3.5 Within Commercial Precincts ensure that recycling and waste storage areas are appropriately located and screened to limit adverse visual effects and to assist with maintaining amenity values.
- 20.2.3.6 Limit the establishment and scale of non-residential activities outside of Commercial Precincts to minimise effects on the residential amenity values and traffic safety and to maintain residential character.
- 20.2.3.7 Identify Visitor Accommodation Sub-Zones on the Planning Maps to provide for visitor accommodation activities in identified locations, and restrict the establishment of visitor accommodation activities in locations outside the Visitor Accommodation Sub-Zones to ensure that the Zone maintains a residential character.
- 20.2.3.8 Ensure that the design of buildings for visitor accommodation, commercial and community activities contribute positively to the visual quality of the environment, including through building design, landscaping and response to site context.
- 20.2.3.9 Ensure that visitor accommodation activities and development are appropriately serviced and minimise impacts on roading networks.
- 20.2.3.10 Enable home occupation activities throughout the Zone to provide work-from-home opportunities and reduce travel-dependence for employment, while ensuring that residential amenity is maintained.
- 20.2.3.11 Enable residential visitor accommodation and homestays to establish throughout the Zone, ensuring that the scale and effects of these activities do not adversely affect residential amenity.

20.3.2 Interpreting and Applying the Rules

- 20.3.2.1 A permitted activity must comply with all the rules listed in the Activity and Standards tables, and any relevant District-wide rules, otherwise resource consent will be required.
- 20.3.2.2 Where an activity does not comply with a Standard listed in the Standards table, the activity status identified by the Non-Compliance Status column shall apply.
- 20.3.2.3 Where an activity breaches more than one Standard, the most restrictive status shall apply to the activity.
- 20.3.2.4 Activities located within the Commercial Precincts and/or Visitor Accommodation Sub-Zones depicted on the Planning Maps must comply with any rule that specifically applies to the Commercial Precinct or Visitor Accommodation Sub-Zone and must also comply with any other rule in this chapter, and the district wide rules, otherwise resource consent will be required.
- 20.3.2.5 Proposals resulting in more than one (1) residential unit per site shall demonstrate that each residential unit is fully contained within the prescribed net area for each unit.
- 20.3.2.6 General references to the Visitor Accommodation Sub-Zones in this Chapter only apply to the sub-zones within the Settlement Zone.
- 20.3.2.7 References to Cardrona mean both the Commercial Precinct and the Visitor Accommodation Sub-zone as identified on the District Plan maps. Individual references to the Cardrona Commercial Precinct or the Visitor Accommodation Sub-zone means that particular overlay only.
- 20.3.2.8 The following abbreviations are used in the following tables. Any activity which is not permitted (P) or prohibited (PR) requires resource consent.

P	Permitted	C	Controlled
RD	Restricted Discretionary	D	Discretionary
NC	Non Complying	PR	Prohibited

20.3.3 Advice Notes - General

- 20.3.3.1 On-site wastewater treatment is also subject to the Otago Regional Plan: Water. In particular, Rule 12.A.1.4 of the Otago Regional Plan: Water.
- 20.3.3.2 Compliance with the New Zealand Electrical Code of Practice for Electrical Safe Distances ("NZECP34:2001") is mandatory under the Electricity Act 1992. All activities, such as buildings, earthworks and conductive fences regulated by NZECP34: 2001, including any activities that are otherwise permitted by the District Plan must comply with this legislation. Chapter 30 Energy and Utilities part 30.3.3.2.c has additional information in relation to activities and obligations under NZECP34:2001.

Amendments to the Cardrona Character Guideline 2012

The Guideline and the amendments below were notified in Stage 3B. The strike-through and underlining below show the notified amendments to the Guideline, which is available via the following web link:

<https://www.qldc.govt.nz/media/wadeyrq4/pdp-s32-chapter-46-rural-visitor-zone-appendix-5-2019.pdf>

Part 1.1 Purpose of the Guidelines (page 1):

Delete the third paragraph as follows:

~~The guidelines are non-statutory but are intended to complement and assist in the interpretation of the District Plan. To this end, the Council will use these guidelines under section 104(1)(c) of the Resource Management Act to help it assess and make decisions on resource consent applications.~~

Add the following after the existing fourth paragraph on page 1

1.1a The Planning Framework

The Queenstown Lakes District Plan provides a planning framework for Cardrona Village through the Settlement Zone Chapter 20.

All owners and designers must refer to the Guidelines as part of undertaking certain types of development where a resource consent is required. The Guidelines will be considered on a case by case basis to the development.

The Guidelines are referenced within the District Plan in the Settlement Zone and Signs Chapter and seeks to inform and guide appropriate development outcomes within the areas governed by this document.

Part 2.1 Structuring Elements (1) (Page 6)

Amend the third paragraph as follows:

The full length of Cardrona Valley Road within the village boundaries is too long to sustain a vibrant retail frontage. The Commercial Precinct overlay as shown on the Plan Maps concentrates Commercial development ~~should therefore be concentrated~~ on the straight stretch of the road either side of the Hotel and around the envisaged village green.

Amend the image at Page 6 as follows:

1. *The 'Village Core / Main Street' annotation aligns with the Commercial Precinct as shown on the Stage 3 Plan Maps;*
2. *The extent of the zone aligns with the Settlement Zone as shown on the Stage 3 Plan Maps;*

Part 4.5 Landscaping and Planting in Cardrona Village (Page 28)

Amend the table of planting follows:

1. *Delete the reference to Sorbus aucuparia 'Rowan'.*
2. *Delete the reference to Crataegus monogyna 'Hawthorn'*
